### Accountability

*Coaching Leaders on Improving Workplace Performance*

#### **Accountability Partner**

*Bennett Taylor serves as an Accountability Partner to ensure the leader aims for and achieves clarity in five very important areas crucial to reaching his or her goal(s) – the desired outcome.*

##### **Five Areas of Emphasis:**

1. Clear Expectations
2. Clear Capacity
3. Clear Measurement
4. Clear Feedback
5. Clear Consequences

The Think Track Model™ plays a key role in Think Track’s accountability coaching as the leader’s expectations are clarified and personal perspectives are challenged. S.M.A.R.T goals are fine-tuned. Attention is paid to identifying personal and organizational values. An assessment is conducted to determine what motivates the leader when things are going well and when things are not going well.

The benefits of having an Accountability Partner include greatly improved focus, personal and organizational value clarification and motivational insight. ***A trusted accountability partner can increase your odds of goal attainment by 95%.***
